

Opportunity Announcement: Tomorrow's Leaders II Scholarship Program and Recruitment

The Office of the Middle East Partnership Initiative (NEA/PI) announces an open competition for proposals to enhance and expand educational opportunities in the Middle East and North Africa. Education is a priority for the Administration, and President Obama has called for an increased emphasis on building partnerships through expanding exchanges and increasing scholarship opportunities for students from this region. With this program announcement we seek to promote mutual understanding and respect through innovative projects that provide university-level scholarship and internship opportunities at select institutions of learning in the Middle East and North Africa. A) Tomorrow's Leaders Scholarships II: This priority area implements the second phase of a scholarship program for Arab students from underserved backgrounds. Successful applicants will provide an American-accredited education which will create a strong foundation for a cadre of civic-minded, intellectually able, and professionally skilled university students, well-prepared to become future community and business leaders. B) Recruitment for Tomorrow's Leaders Scholarships II: Under Priority Area B, NEA/PI is soliciting applications from organizations to conduct the recruitment portion of TLII. For more details please look under "Funding and Project Opportunities" on the MEPI website (<http://mepi.state.gov>).
